

Map: The English Colonies

Sun p.7

Create a Map that identifies the 3 regions, the 13 colonies, and a major resource from each region. Use p. 110, 115, and 120 for reference.

1. What geological feature formed a western boundary for the colonies?

--

2. For what ocean-related products was New England known?

--

3. All of the New England Colonies are east of what major river?

--

4. Why might the Middle Colonies' rivers that empty into the ocean be important for farmers?

--
